

INTOUCH

bodynews

BELLA THORNE, 19
The actress' look has transformed in recent years, but her nose appeared to be among the first changes. "She's had a plasty," says NYC-area plastic surgeon Dr. Steve Faltek, who thinks the work was unnecessary. "The tip and nostrils are too narrow."

ELLIE GOULDING, 30
"This looks like an excellent nose job," says Philadelphia-based plastic surgeon Dr. Kevin Brandow. He says the singer "had a severe deviation of the septum, which has now been straightened."

ARIANA GRANDE, 23
Ariana has ditched her girl-next-door vibe for a sexier image, and it seems she went under the knife during her metamorphosis. "The bridge and tip are more narrow," says Dr. Brandow. "I think her new nose fits her face and looks pretty natural."

DID THESE STARS GET NOSE JOBS?

These ladies are gorgeous either way, but the changes are as plain as the...well, you know

HAILEY BALDWIN, 20
The model says she simply "grew into" her looks, but Trey, Mich.-based plastic surgeon Dr. Anthony Youn says it appears a cosmetic procedure helped her along. "Her nose has likely been refined," he says. "It's thinner, which makes her face look more sleek."

BELLA HADID, 20
Just before her catwalk career began to take off, Gig's sis started to look different. "It appears she's had a nose job but not a good one," says Dr. Brandow. "The bridge is too narrow and the tip is too boxy."

RITA ORA, 26
The changes between the singer's current nose and her old nose are quite noticeable, but Dr. Youn approves of the surgical tweak. "It's shorter, straighter and fits her face nicely," he says, adding, "it doesn't look overdone."

The experts quoted in this story have not treated these stars.
