

KNIFESTYLES OF THE RICH & FAMOUS

I always said I wouldn't change my face, but I did," admitted *Real Housewives of Beverly Hills* star Lisa Rinna, who has copped to facial fillers, silicone lip injections and Botox in the past. The experts are divided on whether or not the alterations were worth it: "I think Lisa looks really good," says Philadelphia-based plastic surgeon **Dr. Kirk Brandow**, who, like the other experts consulted here, has not treated the 53-year-old actress. "Except her lips are too large for her face. I would have left her lips alone." The

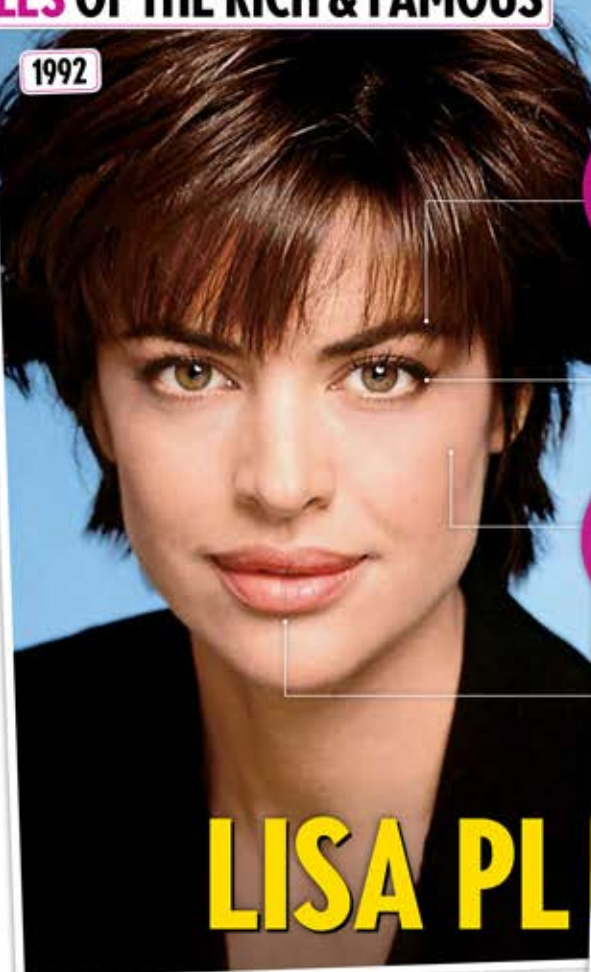

"Her lips are a bit much."

— **Dr. Gary Goldenberg**

doc also thinks the actress may have had a nose job. "The distance between the tip of her nose and her lip has lengthened," he says, adding, "Her shorter nose doesn't match her face as well." Dr. Gary Goldenberg, a board-certified dermatologist, thinks Lisa's skin has been well-maintained through laser resurfacing, though he recommends more treatments for sun damage. "Overall," he says, "she looks very good. Contouring with fillers has helped her keep her look youthful, but age-appropriate." **N**

NOW

BROW

"She's had a lateral brow lift," says Dr. Goldenberg. He thinks Lisa's been getting Botox injections, at a cost of \$900 to \$1.2K, "for some time, since there are no wrinkles or lines."

EYES

Miami plastic surgeon Dr. Leroy Hochstein thinks Lisa had her lower eyelids done. "The area is very smooth, without any fat deposits or puffiness," he says. Prices run around \$4K.

CHEEKS

Not only are Lisa's cheekbones much higher and more prominent now, but they're also "plumped, likely from a filler like Sculptra," says Dr. Anthony Youn. Cost of Sculptra injections: \$2K.

LIPS

Despite a 2010 lip reduction surgery, "They still appear overly plumped, especially her upper lip, possibly with implants," says Dr. Youn. Lip Implant price tag: \$2K.
